

“9. International Basic Income week (19. - 25. Sept. 2016)”

For the preparation of the „Call for participation“ in the “9. International Basic Income Week (19. - 25. Sept. 2016)” we have started to discuss which slogan could be used for this week.

After a brain storming in our “Round Table UBI-Austria” we had 27 proposals. With the method “Systemisches Konsensieren” we have found out the 5 proposals with the lowest resistance / opposition:

1. Leben ohne Existenzängste (Life without fear for one´s livelihood)
2. BGE: Ein Menschenrecht (UBI: a human right)
3. Freiheit trifft Gerechtigkeit (Freedom meets justice)
4. Ende der Ausbeutung von Mensch und Natur (End of exploitation of people and nature)
5. BGE, weil die Güter dieser Erde allen Menschen gehören (UBI, because the goods of the earth belong to all people)

Perhaps we can agree to one of the proposals or decide for an other one.
